Argument in Opposition to Measure B

Vote "No" on Measure B.

Children's computers in San Jose libraries do not protect our children from graphic sexual pictures. Pornographic images are available to our children on the computers in the children's section of the San Jose Libraries. Santa Clara County Library District computers have pornography filters in place to protect the children of Los Altos, Cupertino, Los Altos Hills, Monte Sereno, and Saratoga from pornographic images.

The San Jose children that use our San Jose libraries deserve to be protected in the same way. In 2009, the San Jose library system refused to protect our children even though the costs to install the filters on the computers in the children's section were guaranteed by private contributions. Why reward the libraries which do not give our children the same protection children in other cities receive? Help make our libraries a safe place for children and families. No parcel tax extension until pornography filters are installed on the computers in the children's section of our libraries.

Protect our children.

Vote "No" on Measure B.
